VANDUZEN INC.

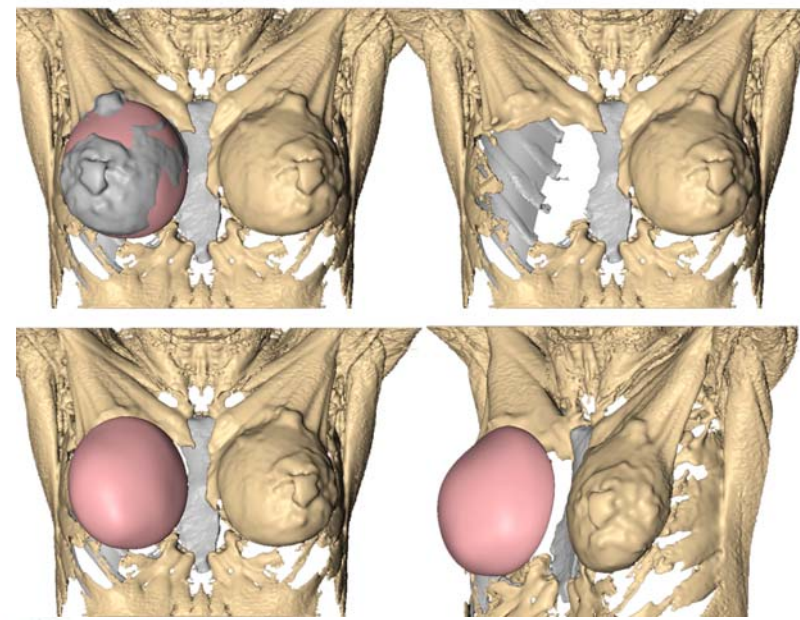

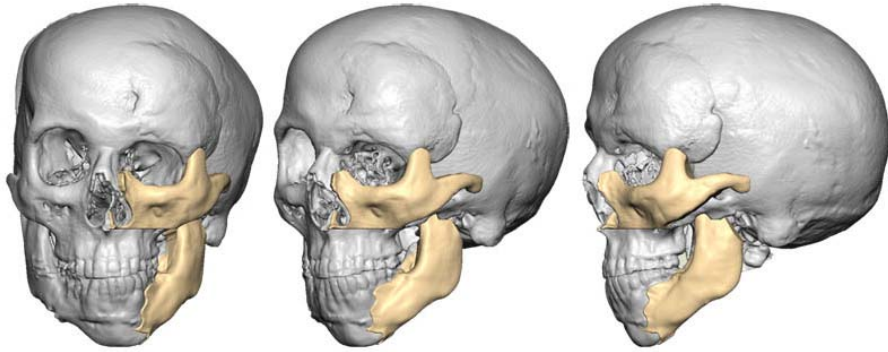

Sculpt **CAD**

SculptCAD is a full service design and CAD development firm specializing in digital sculpting, reverse engineering, surfacing and prototyping of organic and sculptural products. We also offer hardware and software solutions.

We make the most difficult shapes, manufacturable.

VANDUZEN INC.

MedCAD®

MedCAD is the leader in 3D biomedical modeling services, specializing in custom implant development and virtual surgical planning through on-line collaboration with physicians. We pioneer solutions in medical mass customization.

Our services provide better results, saved time/money and lower overall risk through the assistance of digital visualization.
